

Similar Yet Different

COMPARE & CONTRAST

Alligator

ANIMALS

Crocodile

Similar Yet Different is a great supplement for science lessons. Students will compare and contrast 20 very similar yet different animals by filling in a Venn Diagram.

Worksheets include:

Bison & Buffalo, Butterfly & Moth, Dolphin & Porpoise, Frog & Toad, Turtle & Tortoise, Wolf & Coyote, Hare & Rabbit, Alligator & Crocodile, Cheetah & Leopard, and Seal & Sea Lion.

The last page is a blank Venn Diagram to compare other animals.

These pages print best when printer is set to landscape.

While you are learning about animals use these helpful printer-friendly worksheets. Younger students can draw pictures - we shared a great example of an alligator & crocodile. Older students can write facts. Enjoy!
